## FIRST HEARING FAILS TO SHED LIGHT ON ENORMOUS FUND COX DECLARES REPUBLICANS ARE SEEKING TO RAISE

National Chairman Hays Testifies Party Budget Calls Only For an  
Expenditure of Three Million Dollars Before Sen-  
ate Committee

### COX DENIES SUPPORT FROM WETS OR DRYS

Statement Follows Publication of Letter Purporting to Be from New  
Jersey Federation of Liquor Interests Ask-  
ing For Contributions

Chicago, Aug. 30.—An extended examination today of Will H. Hays, Republican national chairman and Homer S. Cummings, former Democratic national chairman, by the senate committee investigating campaign expenditures, failed to throw any light on the \$15,000,000 fund which Governor Cox charged the Republican party was seeking to raise "in an attempt to corrupt the American electorate and buy the Presidency."

The committee heard Representative Flood of Virginia, chairman of the Democratic congressional campaign committee, and former Representative Joseph L. Rhinock, of Kentucky, treasurer of the committee.

Outstanding points in the maze of figures through which the committee struggled were:

Testimony by Mr. Hays that the Republican national committee budget for the Presidential campaign called for expenditures of \$3,079,037.20.

Declaration by Mr. Cummings that, allowing for the increased cost of printing, clerical hire, rents, transportation and all necessities of a national campaign, the national committee should be able to stage a "fair, decent and stiff campaign with reasonable publicity" for \$3,000,000. With that amount of money, he said, the national chairman need not worry over finances.

Mr. Hays also testified the Republican national committee was seeking to raise approximately \$1,000,000 to be donated to state committees for their local campaigns, making a total of slightly more than \$4,000,000 in the Republican campaign chest for all purposes.

### COX DENIES CONTRIBUTIONS HAVE BEEN MADE BY WETS

Columbus, O., Aug. 30.—Answering testimony of Will H. Hays, chairman of the Republican national committee, before the senate subcommittee investigating campaign expenditures in Chicago today, Governor Cox declared this evening "the wets have not contributed a dollar to my campaign and they will not." The governor added that neither had the "drys" contributed.

Governor Cox's statement was made after reading newspaper accounts of the hearing in Chicago before which Chairman Hays read a letter purporting to be from George T. Carroll, president of the New Jersey Federation of Liquor Interests, asking for contributions to help elect Cox.

"It is very well understood in this state, in particular," Governor Cox said, "that the wets have not been active in politics for some time. Official reports to the treasury of the state showed that in the last year or two the wets have not apparently been able to make large campaign contributions for wet referendum. If Mr. Hays will take time to investigate the official reports in Ohio he will find that the wets have never contributed a cent to any of my campaigns."

Speaks at Ohio Fair Today.

The governor declared any statement to the effect that the wets are contributing to his campaign was absurd on its face, adding that he only made replies because "silence might be misconstrued."

The governor returned here this afternoon from his eastern tour. He will speak at the Ohio fair tomorrow afternoon on agriculture and said he might also discuss the League of Nations with the farmers. He stated this evening that he is preparing a statement on "the last plan," meaning the plan for a world's court of justice outlined by Senator Harding, his opponent in a recent speech. The governor said he had been informed on his arrival here by a close political adviser, that the League of Nations has "overrun party lines." Speaking of his New York visit, Governor Cox said he was surprised to see the general interest in politics displayed so early, "as it generally is the custom of New Yorkers to forget politics until after Labor Day." He said he ran into a lot of independent thought in New York and was "surprised at its volume." He said independent head- ed by Rabbi Stephen S. Wise had expressed a desire to entertain him on his next trip to the metropolis.

Governor Cox said he had no comment to make on the attitude of organized labor toward his candidacy as expressed by President Campers and other officials of the American Federation of Labor.

### 1916 Fund Not So Large

Mr. Cummings declared he believed this amount was excessive and pointed to the 1916 campaign, saying he learned in his home state of Connecticut the Republicans spent \$250,000 in that year. He considered this was too much for a commonwealth of that size.

"If you let the state committees run wild," he said, "you get an accumulated expenditure which in itself is an outstanding evidence of corrupt purpose. I suggest that this is just, he said, "could need \$20,000 for its

### administration expenses. It pays no rent as it uses the house office building at Washington for headquarters.

Hints at "Wet" Fund for Cox.

Joseph L. Rhinock, treasurer of the committee, said he could shed no light on receipts or expenditures.

Mr. Hays submitted a letter to the committee which he said was from George T. Carroll, president of the New Jersey Association of Liquor Interests and which solicited funds to carry on Cox propaganda. The letter said Governor Cox was a pronounced "wet." At another point he charged that the Democrats had planned a \$10,000,000 campaign fund. Questioned concerning this, he said his information was obtained from newspaper accounts of the Democratic executive committee meeting in Atlantic City, N. J., August 24, 1919, where W. D. Jamieson was quoted as saying that amount would be needed. Mr. Jamieson has been subpoenaed to appear before the committee.

### Daniels' Name Brought Up

On questioning Mr. Cummings, Chairman Kenyon asked how much money it would take to buy the American electorate, saying Governor Cox had charged that the Republicans were raising \$15,000,000 for this purpose.

"Harding couldn't be elected no matter how much money is spent in his behalf," rejoined Mr. Cummings. "Governor Cox did not say that the American electorate could be bought for \$15,000,000, but he did say an attempt was being made to do so."

The witness could not say how many federal officials were at the San Francisco convention, but referred the committee to the convention records. He did not know that the secretary of the navy journeyed to San Francisco on a battleship at government expense as suggested by Senator Kenyon, but added:

"If the question is intended to reflect on Secretary Daniels, it would be more proper to ask him. There is a lot of political talk in every campaign that doesn't amount to much, and to my mind this is some of that kind."

Fred W. Upham, Republican national treasurer, will be the first witness tomorrow. Senator Kenyon announced when the committee adjourned. He will be followed by Wilbur W. Marsh, Democratic treasurer.

## TROTSKY COMMANDS BOLSHEVIK TROOPS

Remnants of Units and Recruits  
Will Be Divided into Two Ar-  
mies, It Is Reported

Warsaw, Aug. 30.—Bolshevik officers taken prisoner by the Poles say that the Polish army will not meet serious resistance until it reaches the line running through the railroad points of Vienna, Lida, Baranovichy and Luninets. It was learned here today. Wireless messages have been sent broadcast to scattered units of the Bolshevik army remaining in Polish territory asking them to try and rally at Minsk and outlining the work of reorganizing the Soviet troops, according to a wireless message of the Bolshevik which had been intercepted by the Polish general staff. It is urged that this reorganization be pushed at all possible speed.

This intercepted message also noted the complaint of Bolshevik division commanders because they had received unarmed soldiers as reinforcements.

The message indicated that the remnants of the Bolshevik troops operating in Poland, as well as the recruits, will be divided into two armies. A northern headquarters would be established at Minsk and a southern headquarters at Rovno. Leon Trotsky, the Soviet minister of war, is expected to take personal supreme command of both armies.

Warsaw, Sunday.—President Pilsudski, in a statement to the Polish press, declared that the front designated by the Allies on December 8, as Poland's eastern frontier, is from a strategic point of view worth nothing to the republic.

"At several points in the region of Brest-Litovsk," he says, "we have already crossed the Allied line; in the north we are approaching it. To halt on this line, dig trenches and create a state of defense, means that we confirm with this act that the front in the east answers our aspirations."

The Polish president goes on to say that there are only two solutions of the Russian problem, either to march forward and crush the Reds so completely that they will be forced to speak with the Poles in another tone, or remain with the illusory frontier and conclude peace as promptly as possible.

### MISSING HUSBAND DEAD

Bridgeport, Conn., Aug. 30.—Police and firemen late tonight located the body of George N. Nott, whose disappearance followed the supposed shipwreck of a trunk containing the body of his wife. Four shots at 8:15 Sunday morning, issued from the house, aroused suspicion of the neighbors.

## BELFAST SUBURB BURNING INFERNO

Nearly a Score of Fires Were  
Burning in Shankhill District  
Late Last Night

Belfast, Aug. 30.—The Shankhill district of Belfast last night was a blazing inferno. Nearly a score of fires had been started and virtually all the grocery stores and public houses owned by Catholics in the district were being destroyed.

The police fired on the crowd during the disturbances, inflicting several casualties.

At 5 o'clock this afternoon, a minor battle started in Royal Avenue with the Belfast Telegraph office as its center. A crowd of Sinn Féiners crept down Library street from Carrick hill and opened a revolver fusillade on the unionists in the avenue, who replied vigorously. The windows adjacent to the fighting were crowded with spectators. The scene was unique in the city's history.

Today's rioting was the worst in the city's history and was probably the first to take place in broad day light. The victims again were numerous and brought the dead up to 16. In excess of 100 persons have been more or less seriously injured during the disorder and there have been 130 fires since last Wednesday.

The lord mayor, after strong pressure today, made representation to the authorities, as a result of which General Balmbridge and Commissioner Gelson have given the customary 24 hours' notice for the enforcement of the curfew order. Therefore, Belfast was expecting a wild night tonight before the curfew comes into force.

The men killed Saturday night and Sunday were declared to be Sinn Féinists, while those killed today were virtually all unionists.

The mills, factories and schools were closed today and most of the shops in the disturbed areas also were shut tight.

## BRITAIN'S ANSWER IS BADLY GARBLED

Details of British-French Policy in  
Asia Minor Received But  
Are Beyond Perusal

Washington, Aug. 30.—Reply was received by the state department today from Great Britain to the recent note of the American government asking for information as to the reported British-French policy as to oil supplies, notably in the mandate countries of Asia Minor. The note was so badly garbled in transmission that officials were unable to make out the contents, and unless the garbled portion can be cleared up by cable announcement as to the nature of the reply, it will be withheld pending receipt of a copy of the communication by mail.

The inquiry of the United States government, addressed to Great Britain several weeks ago was said today by state department officials to be directed primarily to developments of the principle to be established and recognized by all the powers as to the exploitation of raw materials in mandate territory.

An agreement was reported concluded between the French and British government at the San Remo conference, by which the oil rights in Mesopotamia were divided between the two countries. It was to this specific agreement, as violating the general principle covering the exploitation of mandate countries to which the United States government is believed to have taken exception. At the same conference, a mandate over Mesopotamia was awarded the British government by the supreme council, although this mandate has never been confirmed by the general assembly of the League of Nations as prescribed by the treaty of Versailles.

Officials expressed the belief that it would not be possible to reach a satisfactory understanding until the conclusion of further correspondence.

Washington, Aug. 30.—General accord with the view of the United States to Russia has now been expressed by all of the Allied powers except two—Great Britain and Japan.

A formal preliminary statement of Italy's concurrence, transmitted through the counselor of the Italian embassy, has been received; while similar assurances have reached the state department from Poland.

The French attitude was disclosed in the notes recently published, prompted by the American answer to the Italian inquiry as to the position of the American government. The preliminary assurances from Italy are to be confirmed in a formal note as soon as the Italian counselor takes occasion to express the thanks of his government for the American note to which reply is to be made.

### SHIP COMPANIES INDICTED

New York, Aug. 30.—Forty-two steamship companies, and freight brokers, including virtually all the big trans-Atlantic lines, were indicted by the federal grand jury here today on charges of conspiracy and restraint of trade in violation of the Sherman anti-trust law.

### SPANISH CABINET QUILTS

Paris, Aug. 30.—The Spanish cabinet has resigned, according to ad- vices received here today from Madrid.

## APPROVES MINE WAGE DECISION

President Signs Majority Report  
Granting Increases Ranging  
from 17 to 20 Per Cent

### APPEALS TO MINERS

Strict Fulfillment of Pledges Is En-  
couraged in Telegram Sent  
from the White House

Washington, Aug. 30.—President Wilson today approved the majority report of the anthracite coal commission, awarding anthracite miners wage increases aggregating \$55,000,000 and notified the miners that he expected them "to accept the award and carry it into effect in good faith."

Replying to threats from the miners that they would stop work September 1 unless the minority reports of the commission, recommending a higher award than provided in the majority, were accepted, the President stated definitely that the majority report would not be set aside.

The majority report of the commission signed by W. C. Thompson, president of the Ohio state university, representative of the public and chairman, and by W. L. Connelly, of Scranton, Pa., representing the operators, granted wage increases of 20 and 17 per cent above the present wage scale. The 20 per cent wage increase was awarded contract miners and the advance of 17 per cent was recommended for company miners, monthly men, miners' laborers and consideration miners.

### Sought Minimum Wage of \$6.

Neal J. Ferry of McAdoo, Pa., representing the miners, whose minority report, the workers in district meetings have endorsed, recommended a minimum wage of \$6 a day for adult day laborers and an increase of 31 per cent for contract workers.

In refusing the request of the miners for acceptance of the minority report as made in a telegram sent through their local representatives, the president called attention to a resolution adopted by the miners in convention, agreeing to accept the findings of such a commission as he appointed.

"By all the laws of honor upon which civilization rests," the president in his telegram to the miners added, "that pledge should be fulfilled. Any intimation that the anthracite miners will refuse to work under the award because it does not grant them all they expected is a reflection upon the sincerity of the men who constitute the backbone of the community in which they live."

The president further told the miners that if their communication was intended as a threat to the would rest assured that the challenge would be accepted and that the people of the country would find some substitute fuel to tide them over until real settlement of the anthracite mine workers can find expression and they can abide by the obligations they have entered into.

### Draft Contract Thursday

Immediately upon announcement from the White House at noon that the president had approved the majority report, Secretary of Labor Wilson at the direction of the president issued a call for a meeting Thursday at Scranton of the joint anthracite scale committee of operators and United Mine Workers of America for the purpose of writing the terms of the award into a contract to be effective until March 31, 1922.

The wage increases recommended by the majority will amount to an annual increase in pay for the miners of \$55,000,000 and in the payment of \$18,000,000 back pay, accumulated since last April.

Interest of the general public in the award centered largely in the effect of the increases in wages on the price of hard coal. Taking cognizance of this, the commission said that while making substantial improvement in the situation of the miners, it had tried to be conservative and had declined to commit itself to a decision that might justly be considered as an encouragement to the so-called vicious upward spiral in prices. The result, the commission said, was that the award, while providing improved conditions for the workers, could offer no justification for any advance in the retail prices of coal.

### ITALY IN ACCORD WITH U. S.

Washington, Aug. 30.—Italy has informed the United States that the two governments are practically in accord as to sentiments concerning Russia and Poland contained in the recent American note. Secretary Colby announced today.

Similar assurances had been received, Mr. Colby said, from Poland.

The communication was made through the counselor of the embassy in a formal visit to the state department. Mr. Colby added. A reply to the note would be made, he said, as soon as the Italian premier returned to Rome from Lucerne.

### BURN MAGNIFICENT RESIDENCE

Cork, Ireland, Aug. 29.—A party of armed men yesterday burned the magnificent country residence of deputy lieutenant of Cork county, Joseph Pike, near here. The family was absent at the time. The servants were allowed to leave the premises with their personal belongings.

## STRIKE UNSETTLED, BROOKLYNITES WALK

Few Elevated and Subway Trains  
Are Put in Operation, But  
No Surface Cars Run

New York, Aug. 30.—With the strike-bound Brooklyn Rapid Transit system able to operate 61 two-car elevated and subway trains, and no surface cars at all, great throngs of Brooklynites went home tonight on motor trucks, furniture vans, buses and vehicles of every description. Other thousands walked across the East river bridges. The greatest jam was at the terminals of the East river bridges and at the Long Island railroad station in Brooklyn. Emergency municipal bus lines did much to relieve the congestion. Nearly a thousand buses carried passengers over established routes for five cents, while operators of hundreds of other vehicles sought passengers from Manhattan to Brooklyn and back at widely varying prices. City officials announced they were on the trail of profiteers who are charging exorbitant prices. The penalty, they said, would be the revoking of licenses.

Extra municipal ferry boat service aided large numbers to cross from Manhattan, who otherwise would have been delayed for hours in getting home. Many business concerns sent their employees home in trucks.

No attempt will be made to run surface cars in Brooklyn tomorrow, B. R. T. officials said tonight, but they hoped to have them moving soon with new men.

The Public Service commission held a hearing late today in an effort to bring about a settlement of the strike. The witnesses who appeared were Lindsey M. Garrison of the B. R. T., Patrick Shea, a leader of the strikers, and other union officials.

The commission did not complete its inquiry, but announced that the chief disagreement between the men and the company is over the question of arbitration. The hearing will be continued tomorrow.

Federal Judge Mayer, local custodian of the B. R. T., said he would not submit to arbitration of the strikers' demands unless he could regain the right to scale down any wage award he saw fit.

Mayor Hylan appealed to Judge Mayer to recede from this position and the judge said he would take up the subject with the mayor.

Possibility of a sympathetic strike by employees of the Interborough Rapid Transit company and the New York Railways company were discussed at a strikers' mass meeting in Brooklyn tonight. James Sheridan, chairman of the strike committee, announced that Patrick J. Shea, and Louis Fridiger, spokesmen for the B. R. T. employees, were in conference with representatives of the employees of the two Manhattan roads. He was cheered when he said "I hope within a few days Manhattan will be tied up as tight as Brooklyn is tonight."

Shea later said he had not conferred with representatives of the Interborough employees, but had discussed working conditions with leaders of the New York Railway company's workers. No decision was reached, he added.

### MACSWINEY STILL ALIVE

Condition of Hunger Striker in Brix-  
ton Jail, However, Is Declared  
Precarious

London, Aug. 30.—No word has been received from Lucerne, Switzerland tonight indicating any change in the policy of Premier Lloyd George with regards to Lord Mayor MacSwiney of Cork, who is in a precarious condition in the Brixton jail here as the result of an extended hunger strike.

Father Dominic spent more than an hour in the prison tonight. When he left at 9 o'clock, he reported that MacSwiney was weaker and expressed the belief that he might die at any moment. The priest said MacSwiney was showing an indomitable will.

Four hunger strikers in the Cork jail today completed their 20th day of fasting and were reported tonight to be at the point of death.

At midnight Mr. MacSwiney was still alive. He was conscious, but unable to speak.

### ASSAULT AMERICAN SPRINTER

Belgian Gendarmes, Unable to Speak  
English, Handcuff Athlete and  
Take Him to Jail

Antwerp, Aug. 29.—M. L. Kirksey of San Francisco, one of the American sprinters, was assaulted, handcuffed and taken to the police station this afternoon by Belgian gendarmes, who, unable to speak English, blocked Kirksey from entering the American dressing rooms at the stadium. Kirksey had just returned with Charles W. Paddock of Los Angeles, another sprinter, from Paris, for the medal presentations. He had tickets but when he tried to enter the dressing room he was attacked by the gendarmes who apparently had orders which were unknown to the Americans to the effect that the room was to be used today only by football players.

## PINCHOT BACKS HARDING PLANS

Nominee and Former Forestry  
Chief Are in Accord on Re-  
clamation Policy

### GOVERNORS GATHER

Nine, Most of Them from Western  
States, Hear a Front Porch  
Speech Today

Marion, O., Aug. 29.—Senator Harding's reclamation policy to be enunciated tomorrow in an address here to a group of Republican governors was discussed in detail by the nominee today with Clifford Pinchot, former chief of the federal forestry service and a leader of the Progressive party in the campaign of 1912.

Afterwards Mr. Pinchot issued a statement saying he was much pleased with the senator's views on conservation and related subjects and was ready to let bygones be bygones and do all he could for Republican success.

Nine governors, most of them from western states, have promised to be in the delegation tomorrow in addition to a number of former governors and gubernatorial nominees. Frank O. Lowden, governor of Illinois and one of the leading candidates for the presidential nomination at Chicago, is among those expected to be present. The other states whose chief executives are to attend are Wisconsin, South Dakota, Nebraska, Wyoming, Arizona, Pennsylvania, California and Rhode Island.

Several members of the group arrived today and spent the evening at the Harding home. After the front porch speech tomorrow, the party will be the guest of the Marion encampment of the G. A. R., at a picnic here.

Mr. Pinchot said his conference with the nominee had impressed him with the necessity for election of a Republican president of the nation's resources were to be kept out of the hands of "southern reactionaries."

"Senator Harding and I have been on opposite sides of many questions," Mr. Pinchot's statement continued. "In order to get together there was much for each of us to overlook. One of us likes as little as the other some of the things that each of us have said. But these things are passed. They have nothing to do with the great task of the moment which is to put out of office the men who have debauched and despoiled the people and the government of the United States."

"What Senator Harding has said about forestry and the shortage of lumber and paper is admirable. What he has told me of his views on conservation is equally admirable. I am greatly pleased with both."

More telegrams congratulating Senator Harding on his League of Nations speech were made public today at his headquarters. Among them was the following message from Senator Henry Cabot Lodge of Massachusetts, chairman of the foreign relations committee and Republican senate leader:

"Congratulations! Absolutely with you. Your address is a logical development of the national convention declaration and the speech of acceptance."

## REFUSE TO UNLOAD BRITISH SHIPMENTS

Irish Longshoremen in New York  
Strike in Sympathy with Their  
Freedom Movement

New York, Aug. 30.—British shipping continued to be considerably tied up here today as a result of failure to report to work of many longshoremen who suddenly walked out in sympathy with the Irish freedom movement last Friday. Union leaders asserted efforts to induce the men to return to work had failed and estimated that about 4,000 Irish sympathizers still were out. The men declared they would not load or discharge a ship flying the British flag until England allows Arch Bishop Mannix on Irish soil and frees the Lord Mayor of Cork from Brixton prison.

Few longshoremen reported for work this morning at the piers of the White Star or Red Star lines and company officials would not divulge their plans for the future this afternoon, simply expressing the hope that the informal strike would "blow over" before the end of the week.

A very small group of longshoremen were at work on Conard vessels today.

An effort made by union officials to have the men assemble at a meeting, where they were to be asked to return to their jobs, was spurned by the Irish sympathizers, who held a gathering of their own and sent word to headquarters that they would remain away from the pier until England met "their demands."

### OHIO CENTENARIAN DEAD

## MILFORD LOSES TWICE.

Drops Games by Narrow Margins to Stamford and Sidney.

Milford, Aug. 30. — Before a good-sized crowd at Wilber park last Friday, the Stamford team defeated Milford by the score of 6 to 5. The game was one of the most interesting and exciting witnessed on the local diamond this year and kept both spectators and players on edge every minute.

Smith was in the box for Milford and pitched a wonderful game. He had complete control and mystified the Delaware county boys with his curves and speedy straight ball. The locals secured 6 hits from Maloney and Bauswein.

The game was a tie to the seventh inning, when Milford brought in a score. In the eighth, Connelly, for the visitors, hit a three-bagger, bringing in Camp for the winning score. The score by innings follows:

R H E  
Milford ... 2 0 0 0 2 1 0 0 — 5 6 5  
Stamford ... 0 3 0 1 0 0 2 0 — 6 12 5  
Batteries — Maloney, Bauswein and Winsor; Smith and Ziemann.

Saturday's Game.  
The Milford team went to Sidney Saturday, where they lost an interesting game by a 5 to 3 score. Hickey pitched for Milford and allowed but one hit until the third inning, when it commenced to rain and the ball became wet. He allowed but three hits in the six innings, while Milford secured four from VanDeWerker. The score by innings:

R H E  
Milford ... 0 1 2 0 0 0 — 3 4 2  
Sidney ... 0 0 1 3 1 0 — 5 3 2  
Batteries — Hickey and Cantwell; VanDeWerker and Ziemann.

## COOPERSTOWN LOSES OUT.

Defeated Saturday by Hion Knights of Columbus, 4 to 1.

In a well-played game at Cooperstown last Saturday, the Hion Knights of Columbus defeated Cooperstown to the tune of 4 to 1. Otis Babbitt, an Oneonta twirler, was on the mound for Cooperstown and pitched a very good game. Although they were out hit, the Hionites succeeded in bunching the eight hits they garnered off Babbitt and won the game. The summary follows:

## CUBS DOWN STAMFORD

WIN EXCITING TEN-INNING BATTLE IN DELAWARE TONIGHT.

Gardner Pitches Great Game, Striking Out Last Five Stamford Men at Bat. — Duval and Marone. Willingly Wield the Willow — Stamford Here for Last Time Today.

The Cubs were in great form yesterday and in their last game of the season at Stamford trimmed the Mount Ussanah aggregation by a score of 5 to 4, in ten innings. Gardner pitched a wonderful game of ball for the Otsego county bunch, having excellent control. Particularly noteworthy was his exhibition in the last two innings, when he struck out in succession the last five Stamford batters, which certainly is "going some."

The Cubs got a good start, bringing in three tallies in the first round. Duval, first up, singled and went to second on Dales' sacrifice. Reiter was given a free trip to first by Dietzen. Marone, next up, selected one to his liking and clouted it out for a double, scoring Duval and Reiter. Marone came in on Dempsey's single, thus accounting for the three runs. The Stamfordites caught up and passed the Cubs in the fourth and fifth innings, bringing in two runs in each round, thus making the score 4 to 3 in their favor. The Cubs tied it up in the ninth. Brown got to first on an error by Jacobs and completed the circuit when Jimmy Boylan knocked out a two-sacker.

The fans were on their toes when the eventual tenth inning came. Dales, first up, singled and went to second on Reiter's sacrifice. Again Marone came to the rescue with a two-bagger, scoring Dales with the winning run. The Stamford players never had a chance against Gardner in the tenth, the three men being retired in succession, and the game was over.

Duval and Marone did the stick work for the Oneontans, getting three hits apiece, while Boylan made two. Every Stamford player was credited with a hit, while Kevelin got two.

The Stamford team comes to Oneonta for the last time in 1920 today and a big crowd of fans will surely be at Neahwa park to see the fracas. The Delaware county boys are going to work hard but they will have to do better than that if they are going to win the game.

"Y" TEAM WINS EASILY.  
Nine Spots No Match for the Association Men.

The Nine Spots were no match for the Y. M. C. A. team of the Twilight league last evening and the association men walked away with a 12 to 1 victory, simply tossing with their opponents. In the seven innings of the contest, if such it may be called, the Y. M. C. A. team piled up a total of 14 hits. Pedrone was on the mound for the "Y" and pitched a good game, also featuring in the hitting, making two double-sackers. The "Y" play again tonight, having as their opponents the Shop team, and it is believed that this game will be a little more even.

The summary:

With the Juvenile Ball Stars.  
The Stars and the Cherry Street team, two lively aggregations of 12-year-old totos, played a brisk game yesterday morning at Neahwa park, the former winning by a score of 8 to 6. Mallette and Rutan were the batters for the Stars, and Maginials and Orcutt for the Cherry street boys.

The "Junior Reds" defeated the "Barefoot Giants" at the diamond in the morning, 19 to 18. Batteries — Reds, Hamilton and Keegan; Giants, Rutan and Imhoff. In the afternoon, the two teams were to have again played, but the Reds didn't show up and the game was forfeited to the Giants.

## STRINGENT MONEY CONDITIONS AHEAD

Call Loans Open at Eight Per Cent Advancing to Ten Before Close of Session

New York, August 30. — Factors which contributed to the reactionary movement of recent weeks in the stock market were uppermost again today, price of the mercurial issues recording gross declines of one to five points.

Events over the week-end, especially the substantial recovery of clearing house actual cash reserve were mainly of favorable import, but these seem to be nullified by another flurry in the money market and renewed weakness of foreign exchange.

Signs of more stringent money conditions were forthcoming early in the session, call loans opening at eight percent against the previous week's ruling quotations of seven percent. Long before the final hour nine percent was asked and this was advanced to 10 percent, last week's maximum at the close.

Denial by the French fiscal representative here that arrangements for payment of the Anglo-French loan has been perfected exerted an adverse affect on international remittances. This probably was intensified by further extensive offerings of bills on London and Paris.

Following last week's course falls were again the stock stabilizing influence in the stock list although statements of July earnings submitted by the inter-state commerce were unusual satisfactory for the most part. Motors and their accessories, oils, chemicals, steel and equipments were most susceptible to nervous maneuvers, but made irregular recoveries on the better tone of transportation in the end. Sales amounted to 300,000 shares.

Speculative railway bonds were variously higher, but Liberty issues and foreign bonds registered only nominal changes. Total sales, par value aggregated 7,775,000. Old U. S. bonds were unchanged on call.

## SCHENEVUS FIRE BOYS PICNIC.

Sunday's outing marred by slight accident to Young Men.

Schenevus, Aug. 30.—The C. H. Graham Hose company held its annual picnic Sunday at the electric light plant. The event was to have taken place at the pines, but rainy weather precluded this arrangement. Twenty-five guests enjoyed a very fine chicken dinner served under the direction of Leo Bennett and James MacDuff, and the day proved a great success, despite the unfavorable weather.

One accident marred the pleasure of the day, but fortunately it did not prove serious. James MacDuff, Ralph Bennett and Roger Graney were on their way to the picnic with a long party table in their auto, which Bennett was driving. While going along

## STAMFORD AUTO ACCIDENTS.

Several Cars Damaged in Collisions—Rexmere Bellhop Hurt.

Stamford, Aug. 30.—The rain Saturday made the village street very slippery and dangerous for automobiles. Street Commissioner Barnes covered parts of the Main street with gravel. Several auto accidents are reported. R. M. Sanford's auto collided with a car standing near the Delaware house, doing about \$70 damage.

Saturday night, an auto driven by Nicholas Young collided with a car standing without lights in front of Horak's store, Main street, damaging both cars.

Friday morning, while the Rexmere baggage truck, loaded with trunks, was turning from Main into Harper street, several trunks fell off with a bell boy, who was riding on top, and the bellhop had his foot badly injured by one of the trunks falling on it. He was carried to the office of Dr. George Hubbell, where his injury was dressed.

## FAINTING AND DIZZY SPELLS

The Cause of such Symptoms and Remedy Told in This Letter.

Syracuse, N. Y.—When I commenced the Change of Life I was poorly, had no appetite and had fainting spells. I suffered for two or three years before I began taking Lydia E. Pinkham's Vegetable Compound and Liver Pills which I saw advertised in the papers and in your little books. I took about 12 bottles of your Vegetable Compound and found it a wonderful remedy. I commenced to pick up at once and my suffering was relieved. I have told others about your medicine and know of some who have taken it. I am glad to help others all I can.—Mrs. R. E. Deane, 451 W. Lafayette Ave., Syracuse, N. Y.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound. Moreover, this reliable remedy contains no narcotics or harmful drugs and owes its efficiency to the medicinal extracts of the native root and herbs which it contains.

Sewer on Roosevelt avenue and listened to grievances at the Municipal building Friday evening. Five property owners attended and objected to the assessments. The assessment is at the rate of \$1.25 per foot frontage, besides for specials. The first assessment, which was set aside by Judge McNaught, was at the rate of \$1.50 per foot frontage, with specials on the residences. The special assessments were reduced in the last assessment on most of the residences. Action is contemplated by some of the property owners to have the second assessment set aside.

## Personal.

## Taken to State Hospital.

Mrs. James Dean, who has for years resided on Delaware street, this village, was taken to the Middletown State hospital Friday, for treatment.

## Heard About Town.

William Walker has placed a large plate glass front in his barber shop, Main street, and installed large mirrors and otherwise improved the interior. He also has built an addition to the living apartments in the rear.—Electric lights have been installed in the Delaware house and the gas plant will be reserved for emergency use. The office and other parts of the house have also been newly decorated. The hotel is doing a large transient business. Charles Schenckhorn, the manager, is very popular with the traveling public. More alterations and betterments to the building are contemplated.—S. D. Mase, proprietor of the Cold Spring house, is contemplating building a large addition to that popular summer hotel.—Jay L. Wood has gone to Binghamton, where he has accepted a position as manager of a bowling alley. It will be remembered that Mr. Wood's bowling alley and theatre in Stamford were destroyed by fire in July.—The large addition to the Westholm has been completed and the house is filled to overflowing with summer guests. Mrs. Hiscox, the proprietor, who has been quite ill, is improving and her many friends are pleased to hear of her recovery and of her prosperous season.—Stamford is enjoying another fine boarding season and we hear of several hotel proprietors who contemplate enlarging an improving their hotels before another summer.

## Jesse Wood Seriously Injured.

Saturday afternoon, while Jesse Wood of Rush St. was driving on Main street, near the Presbyterian church, his wagon was struck by a skidding automobile and overturned. ## BACK TO SCHOOL

"Back to school" never has a very pleasant sound to the boys. But going back is much easier if there's a stylish new suit to be shown to the other fellows. And if new clothes are needed, here is the place to come.

We have clothes for boys as good as father's, made by Hart Schaffner & Marx. Also other makes not so expensive, but good stuff, and they carry two pair of pants, which is almost as good as buying two suits. When ready to outfit the boy, remember this is the place that makes a specialty of good stuff which boys like to wear.

We have a limited number of battle pictures in colors by Edward Penfield, which would look good in any boy's room. We'll be glad to give you one if you'll come in and ask for it.

## WOOL THAT ISN'T.

At a late meeting of the National Sheep and Wool Bureau of America, held at headquarters in Chicago, the statement was made by President Alexander Walker that there are now more than 4,000,000,000 pounds of virgin (new) wool in the storehouses of the world, and that despite this large supply and the recent substantial reduction of prices to the producer, there is less genuine new wool used in the United States than ever before. Last year, the textile manufacturers of the United States used 113,000,000 less pounds of virgin wool than the year before, and this year the drop will probably be greater. The reason for this is that more than ever in the history of manufacturers, the mills are using reworked wool—shoddy—in the manufacture of clothing, and that these rags are being reworked in some cases as often as eight times. To prevent this practice, which if unchecked seems destined to overthrow the sheep industry in the United States, the people are urged to get together and to urge the passage of the French-Capper "Truth in Fabrics" bill, which would compel manufacturers to stamp on every yard of cloth entering interstate commerce its contents of virgin wool and of wool substitutes.

This measure is being as vigorously opposed by the interests as was the Pure-Food bill twenty-six years ago. The latter measure, despite opposition, became a law, and since that time people buying canned goods have known what they were eating. If the proposed measure becomes a law, the purchasers of clothing will know when they buy a wool suit just how large a part of it is virgin wool, how much is the reworked product, and how much is substitutes.

This is as it should be. The people have stood with equanimity the big advance in the cost of woolen clothes, blankets and other fabrics, but at going prices they are entitled to get what they are paying for. There is no doubt that in this matter the profiteers have been the woolen mill men. They have not only substituted for the genuine product, but they have charged unreasonably big prices and then have unjustly passed the odium along to the clothing manufacturers and the retailers. If any reader of this article has influence with his congressman—and surely every voter should have and exert it—he should pass the word along the line to his representative that the voter favors a bill which will compel makers of cloth to plainly mark their products so that the buyer can distinguish wool that isn't from wool that is.

## THINGS THAT REALLY COUNT.

Drivers of Cars Should Heed Advice of Those With Long Experience.

Always keep your car under perfect control.

Become thoroughly familiar with your local traffic regulations and follow them to the letter.

Drive using the lower gears. Shifting of the gears really shows a good driver and at the same time often prevents stalling the engine in a dangerous place.

Drive slowly at turns in the road in order to have sufficient time to avoid a vehicle that is coming toward you.

In passing a car from the rear, always sound your horn, as the driver of the car may unintentionally cut in ahead of you.

Drive slowly at crossroads, for another car may be coming, attempting to cross at the same time.

On bridges, embankments, and narrow roads, take a slow pace, keeping the car under instant control.

On approaching the brow of a hill be sure you are on the right side of the road. Someone may be approaching from the opposite direction.

Stop when there is an accident, whether it is your fault or not, and render all the assistance possible.

Sound the horn when approaching a turn in the road or the brow of a hill, for another car may be coming toward you.

## Social Gathering on Crumhorn.

Mr. and Mrs. A. L. Dingman and Mr. and Mrs. Jay Dingman and daughters, Edna and Ruth, of Portlandville, Mr. and Mrs. Fred Bush and son, Percy, of Milford, and Mr. and Mrs. L. M. ## LEST WE FORGET GALE.

Mexican Radicals Look Askance on Slacker Turned Reformer.

From Mexico City comes an account of the activities of Linn A. E. Gale, who left Albany during the war in order to evade the draft. A Mexican newspaper, "El Heraldo de Mexico," published in Mexico City July 23, gives considerable space to an interview with Gale, whom the Mexican newspaper fears "will disturb the tranquility of Mexico."

In the interview Gale admits he fled from the United States because he was "a declared enemy of war," saying that he believed all wars are "inspired by financial interests."

He also admits, or rather boasts, of being a believer in Bolshevism, and it was as a Bolshevik that he was interviewed by the Mexican reporter, who wished to set forth the principles of the doctrine that was evidently causing some alarm, even in tumultuous Mexico.

## Teaches School.

Gale is described as being very pale, with the lower part of his face covered by a reddish beard. He conducts a school in Mexico City, being assisted in this by his wife, who is known as Magdalena E. Hagg. On the second floor of his home, which is described as being scantily furnished, is an office used for the meetings of others who profess the doctrines of Bolshevism.

It was through the activities of his wife in spreading Bolshevist doctrines, that the authorities became acquainted with the work of Gale. She was discharged from the Y. M. C. A., for using her position to spread Bolshevism. She applied to the courts for judgment, asking three months' pay under the Mexican law, and was given two weeks' pay.

Gale, according to the newspaper account, showed no unwillingness to tell all about his Bolshevist doctrines, claiming that the principles are much misunderstood and feared when there is really no danger.

## Follows Trotsky.

He admitted that he was a follower of Lenin and Trotsky, "but we must say," he added, "that we are not the radicals as the papers have suggested. Bolshevism is far from being a danger to Mexico. Bolshevism is the Russian word for the majority, as menshiviki denotes the minority, and is no more than a government which functions through the will of the majority."

## County Bankers Meet at Otego.

At a meeting of the executive committee of the Otsego County Bankers' association, the members of which were entertained at dinner at the Country club on Saturday by Hon. Charles Smith, it was voted to hold the annual meeting of the association on Saturday evening, September 11, at the Otego hotel, Cooperstown.

The business session will be held at 6 p. m. and will be followed by the dinner and a social hour. The details of the program have not yet been announced.

The members of the committee in attendance were County Judge U. G. Welch of Edmeston, S. H. Potter of Oneonta, F. H. Meeker of Unadilla and C. J. Armstrong of Milford. Mrs. Welch, who accompanied her husband from Edmeston, was also a guest at the dinner.

## Traffic Violator Fined \$15.

W. M. Thompson, of the District of Columbia, was arrested yesterday for passing a trolley car while discharging passengers and for speeding. When arraigned before Judge Huntington, he was fined \$15, which he paid.

F. M. Hopkins was arrested for a minor traffic violation and was assessed one dollar, which he paid.

## A Departure of Meridale Farms.

Perhaps no event of the year in Jersey circles has occasioned so much interest as the sale at Meridale Farms announced for September 17.

A public auction is a noteworthy departure from past custom at Meridale, where heretofore all cattle have been disposed of at private treaty. The herd has now reached such proportions that a public sale is possible, without disrupting the carefully laid breeding plans to which the proprietors are committed.

Meridale Jersey's have been widely known for thirty-one years. Blood from the herd has been disseminated through private sales to all sections of the United States, to Canada, to Cuba, Central America, Venezuela, Chile, Jamaica, India, China and Japan. It is certain that a large crowd of interested buyers from all sections will be present.

## STILL SOUGHT BY POLICE.

Binghamton Sleuths Unable to Locate Buonopane, Who Shot Two Friday

The police of Binghamton are still searching for Ernesto Buonopane, safe proprietor, who was implicated in the serious wounding of two men, Tony Fato and Harry Santinello, as well as minor injuries to four others. The man is believed to be in Endicott, protected by some of his countrymen. A tip to the chief of police on Sunday took the police to a rooming street house, but they found nothing more dangerous than two couples enjoying what was said to be "home brew."

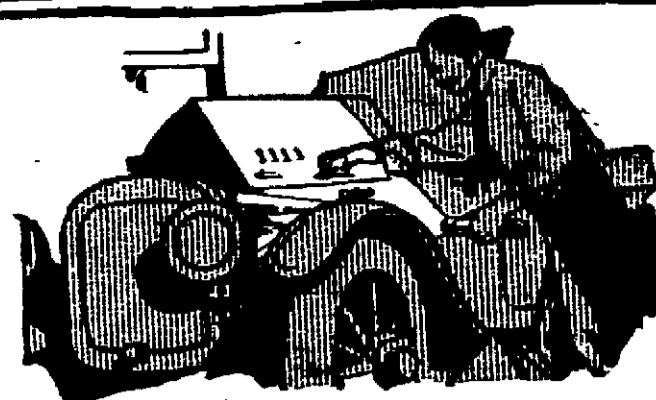

Though at first believed to be fatal, it is said that neither of the men in the hospital is now in a serious condition.

—The army truck which is in Oneonta for recruiting purposes will be stationed for the remainder of this week at the corner of Main street and Ford avenue. Much attention has been attracted by the display of captured German war munitions and American army ordnance, several pieces of which are carried by the truck. A recruiting party will cover this part of the state next year with a camouflaged armored car.

#### Makes Swimming Record.

Miss Frances Patton of Brooklyn, who is spending the summer at Camp Happyland, Richfield Springs, swam across Canadago lake last Saturday morning and continued her swim down along the shore, covering over two miles. Although she swam easily and did not try for speed, she made the distance in an hour and a quarter. Cottagers who were watching her progress through field glasses cheered heartily upon her return to camp. Miss Patton is a senior in the Erasmus Hall High School. She and her youngest brother, Richard, expect to swim from Camp Happyland to Canadago park before leaving the lake.

#### Rowe Employees Enjoy Outing.

The employees of J. O. & G. N. Rowe, together with the members of the firm, enjoyed an outing at Cliffside last Saturday. Baseball and quail pitching were the principal amusements as long as the weather continued favorable, but with the late afternoon came the rain, and outdoor sports were therefore called off. Mr. Rowe invited the party to his camp, where music and other entertainment were enjoyed. Later delicious refreshments were served. All present report a very enjoyable time despite the rain.

### FAST RACES AT COOPERSTOWN

Exciting Contests Announced by Last Just Issued — Well-Known Entries Include Camp's Bellinardine and Galt's Miss—First Races Tomorrow.

The Otsego County fair, which opens today for entries and at which Wednesday, Thursday and Friday will be exhibition days, publishes a list of entries which includes a liberal number of the turf kings and queens of Otsego and adjoining counties, as well as several swift ones from a distance. A perusal of the list, which is given below, shows that the liberal purses offered, amounting to \$2,400 for the three days, with added money in each of the six races, have attracted general attention among horsemen, who with the best animals in their stables are out to win. From Oneonta, the S. G. Camp stables will be represented by Bellinardine and Galt's Miss, entries which indicate that in every race in which they start there will be something doing. No lover of speed contests should fail to witness the Cooperstown races. The list of entries for the three days is as follows:

G. N. Rowe's Cadillac Sideswiped.

The Cadillac touring car of G. N. Rowe was damaged in a collision that occurred early last evening on South Side, but no one was injured. The Rowe car, with Chauffeur Bert Face at the wheel, was coming toward Oneonta and when on the hill just beyond the river bridge, it was sideswiped by a Ford touring car going up the hill. As the cars were traveling moderately, neither overturned, thus precluding any injury to their occupants.

The Rowe car had its left fender badly bent and the running board damaged. According to Face, he was on his own side of the road and the Ford swung over against his car. The driver of the Ford car gave the name of Nellie Zaquist. Her car had a front wheel demolished and a fender bent.

### LABOR DAY IS BASEBALL DAY.

Cooperstown Hopes to Put Fund for Doubleday Field "Over the Top."

Labor Day will be observed as Baseball Day in Cooperstown and an effort will be made on that day to put the fund for the purchase of Doubleday Field, "the birthplace of baseball" over the top. As the lease on the field expires in the near future, it will be necessary to raise the \$5,000 needed at once if the field is to be permanently secured. In order to raise funds, it has been arranged to have three ball games on the field Labor Day. In the morning, the Cooperstown nine will meet Milford while in the afternoon these teams will play another game and in addition the Ilion K. of C. aggregation, which defeated the Otsego county last Saturday will be at Cooperstown for a game. Thus three fast games in one day are promised, and fans will have plenty of opportunity to see good baseball.

John A. Heydler, president of the National League, is expected to be present during the day as the guest of honor. He probably will umpire part of one of the games and is expected to bring with him a regular big league umpire, who will be seen on the grounds during one of the battles.

To make the day complete, there will be a street fair in the evening, with dancing, the proceeds of which will go to the baseball fund. The \$5,000 fund is already more than half raised, and with Labor Day's total proceeds going to the fund, it should be substantially swelled. Undoubtedly many people will wend their way towards Cooperstown next Monday to see the big doings. Incidentally, Dr. Pitcher, treasurer of the fund, would be pleased to see some money coming into the fund from Oneonta, which as yet has done little to preserve the original ball field.

### MAKING HIGHWAYS SMOOTHER.

Street Commissioner Makes Needed Changes on East End Entrance.

Automobilists and others who have occasion to use Main street at East End will be gratified at the improvement made yesterday by Commissioner Bull and his force of men at the junction of the brick pavement with the state highway, just inside the city limits. The header, from which there was an uncomfortable jolt when going in either direction has been trimmed and the brick itself lowered, so that the transition from brick to stone road or vice versa is scarcely perceptible. A little more remains to be done in the way of filling, but the condition as a whole is very satisfactory.

On Lower Chestnut street, where the brick paving ends, there is still some work to be done, and this also will be promptly attended to. On account of the different conditions the repairs on Chestnut street will be made with the crushed stone and coal tar combination, which has worked so satisfactorily elsewhere in the city.

### COMING TO ONEONTA THEATRE.

"Polly and Her Pals" Here Friday Evening Next.

There is no constitutional amendment against beauty and song, so it is safe to announce that George M. Gais production "Polly and Her Pals" will be the attraction at the Oneonta theatre on Friday evening, September 3rd. "Polly" bubbles and sparkles to overflowing with witty dialogue and funny situations and is from the pen of John P. Mulgrew, who used the famous cartoons by Cliff Sterrett for a foundation. Considerable comment of a very favorable nature is heard of the artistic and effective scenic equipment, also of the chorus of "beauties" direct from the Great White Way. Hampton Durand composed a fascinating score of lifting melodies which will find instant favor in this city. It will be shown here with a beautiful production, wonderful gowns, and a cast especially engaged to meet the requirements demanded by the authors. Mail orders now. Seat sale opens 10 a. m. Thursday.

### A Tough Case.

That will make recent and prudent people pay more taxes. Did you read about it in the Oneonta Star? No wonder that the account ended by saying: "The case is a revolving one; revealing how the other half lives and how low in beastiality humanity can fall." And such things happen, even though I, with the help of Uncle Sam, give unsifted people of small means a safe chance to make small amounts roll up to several million dollars, for homes and farms, with a flower garden round about, a pumpkin vine growing in the garden and a chance to bring up children correctly. Well, don't get discouraged, for I'm still on the job and am now starting another big bunch of little fellows to thus roll up half a million more. Watch me put pep in to people so that they get out of the down-and-out class. Is it any wonder that thoughtful people say kind things about and help me? I am the safe and sane Oneonta Building and Loan association. 1t

### YOUNG D. & H. FIREMAN DEAD

INSTANTLY KILLED WHEN HIT BY TRAIN SATURDAY EVENING.

Raymond Ogden, 26 Years Old, of Carbondale, Suffers Fractured Skull and Other Injuries — Evidently Fell Out of Engine — Body Brought Here and Removed Sunday to Carbondale.

Raymond Ogden, 26 years old, a D. & H. fireman residing at Carbondale, Pa., was killed early Saturday night near Unadilla when he probably fell from his engine and was run over by another train.

Ogden was going south on Engine 1057, Engineer F. Downing and Conductor A. F. Boitt. Downing states when at the Potter farm crossing, he observed Ogden leaning against the iron chain of the engine. When his engine reached Unadilla, Downing noticed for the first time that his fireman was missing. Immediately notifying the conductor, the engine was cut loose and started back to look for Ogden, and his body was found between the tracks below the Unadilla crossing.

A north-bound train, with Engine 1055, passed Ogden's train at about this place and it is thought that the unfortunate man fell from his engine and was run over by this train. His skull was badly crushed and he was otherwise injured, death probably being instantaneous. Conductor Mooney, of 1055, said that there was blood on the air pump and running board of his engine, indicating that Ogden met his death when hit by this train.

Ogden's body was put on the north-bound passenger train which arrives in Oneonta at 8:20 and was removed to McCrum's undertaking rooms. Sunday afternoon, it was sent to his home at Carbondale and was accompanied by Engineer I. O. LaGrange. Ogden lived with his father, George Ogden, in Carbondale and was a single man. He is known by a number of local railroad men who regret to learn of his untimely death.

### BRAZEE CONTINUES TO GAIN.

Is Able to Sit Up in Bed and Nearly Out of Danger.

George Brazee, chief figure in the Elk Creek tragedy of August 18, in which he shot and killed Mrs. Anna Glenn VanPatton, and himself received a bullet wound inflicted in self-defense by Guy Hughes, is still at the Fox Memorial hospital and, according to latest reports, is practically out of danger. He is able to sit up in bed, takes and retains nourishment and seems on the way to complete recovery. While it will not be possible for some time to move him from the hospital, the authorities will at the earliest safe moment remove him to the county jail, there to await trial for the crime.

Open the Basket—  
Get Out a Sandwich!

Two hours yet to lunch-time, but you know how it is on a picnic when that great, big out-door hunger swoops over you!

Any kind of sandwich makes the right response, but real de luxe holiday effects may be obtained with special fillings — chopped nuts-and-dates; tomato and mayonnaise; egg-and-lettuce; cold sliced ham or chicken with chopped hard-boiled eggs.

### JELLY SANDWICHES

For the sweet sandwich — which serves nicely for a dessert — use in a m. alade, jam, jelly or any conserve not too liquid.

### Cream Cheese and Walnut Sandwiches

Moisten one cream cheese with a tablespoonful of milk. Work in one-eighth teaspoonful of salt and one-fourth cup of chopped walnut meats. Cut Bread in rather thin slices and spread with filling. If a dainty size is desired, cut each sandwich in four small triangular shaped pieces.

### "Nu" Bread

Is the sweet, nutritious loaf that makes these or any other sandwiches ideal. And it makes plain meals a picnic, too. Ask your grocer.

## FRANKLIN COUPLE CELEBRATE

Mr. and Mrs. Charles Ostrander celebrated their fifteenth wedding anniversary last Saturday. Fifty relatives and friends spent day at their home.

Franklin, Aug. 26 — Mr. and Mrs. Charles Ostrander of Franklin celebrated their fifteenth wedding anniversary last Saturday. Fifty relatives and friends spent day at their home.

Mr. and Mrs. Ostrander have been married fifteen years and are held in the highest esteem by all of their large circle of friends. It is the earnest wish of the community that they may live to enjoy many more happy days together.

Following the dinner at the Ostrander home, which was beautifully decorated for the occasion with summer flowers, the color scheme being gold and white, a group picture of the gathering was taken and the remainder of the afternoon was spent in a social way, reminiscent conversation being the rule. Before departing, the guests left many tokens of their good will, the gifts including gold pieces, cut glass, silver, etc.

Among those present were the venerable couple's son and daughter-in-law, Mr. and Mrs. Walter Ostrander, of Andes, their son-in-law and daughter, Mr. and Mrs. Charles Russell and daughters, Gertrude and Dorothy, of Meredith, Mr. and Mrs. Morse and Mr. and Mrs. Wilcox and daughter, of Binghamton; Charles Brant and mother, of Brooklyn; Mr. and Mrs. Albert Smith, Mrs. Walter Hammond, of Walton, and Mrs. Marcia Benedict, of Sidney Center.

## FRANK A. CAMERON FUNERAL

Many Sorrowing Friends Attend Services at Late Home Monday Afternoon.

The funeral of the late Frank A. Cameron was held yesterday afternoon at 3 o'clock at the late home, 304 West 1st. The service, which was conducted by Rev. Dr. T. F. Hall of Cooperstown, but formerly of Oneonta, was well attended, not only by the members of the immediate family, but by neighbors, friends and members of the three organizations to which he belonged, the B. of L. F. & E. L. O. O. F. and the P. H. C. There were many beautiful floral tributes, among them numerous remembrances from the many friends who made up the service of the DeLaware and Hudson company.

Rev. Dr. Hall made appropriate remarks on the life of Mr. Cameron, using as his scripture "The Lord will be a refuge for the oppressed, a refuge in time of trouble." He stated that he believed Mr. Cameron to be a true Christian, a loving husband and being kind and thoughtful of his fellow men. "I have had many a pleasant spiritual talk with Mr. Cameron," was one of Dr. Hall's statements.

Among those in attendance from outside the city were Mrs. William C. West and Mr. and Mrs. F. A. Sullivan of Middleburgh, Mrs. Henry Wilber of Sharon Springs, Mr. and Mrs. Barriker of Schenectady, and Miss I. V. Shaver of Cortland.

Mr. Cameron's body will be taken to Schenectady this morning for burial and will be accompanied by his wife, Miss S. E. Crapser, Mr. and Mrs. Barriker, Miss I. S. Shaver and the bearers. There will be two bearers representing each of the three organizations. They are E. Brightman and H. Potter, representing the Odd Fellows; H. Hufferd and Mr. Birdsell, representing the P. H. C.; and William Safford and G. Spencer, representing the B. of L. F. & E.

## Brown Family Reunion.

The Brown reunion was held on Friday last at the home of Mr. and Mrs. Orville Shutt, 25 Grove street. There were about 25 in attendance, including besides those from Oneonta, a number of visitors from Saratoga and Dimock, Pa. Balastridge, Franklin, Treadwell, Laurens and Harpersfield. After a delicious dinner at the Shutt residence, all repaired to Neahva park, where ice cream and cake were served.

At the business meeting Mrs. Orville Shutt of Oneonta was elected president. Mrs. C. E. Brown of Binghamton vice president, Mrs. Floyd McLean of Harpersfield secretary and H. W. Brown of Binghamton treasurer. It was voted to hold the reunion next year with Mrs. J. S. Brown of Saratoga, and Mrs. Brown and Mrs. Wesley Brauning of that place were named as social committee.

A vote of thanks was then tendered to Mr. and Mrs. Shutt, the host and hostess of the day, for their kind hospitality, after which the reunion adjourned, each member of the party taking home the memory of a day profitably and most pleasantly spent in renewing old ties and earlier recollections.

## Undergoes Serious Operation.

Mrs. Harold Barnes of Binghamton, but formerly of Oneonta, who underwent a serious operation at the Fox Memorial hospital, recently, is steadily improving. She expects to spend some time with her parents, Mr. and Mrs. Frank Price, before returning home.

## Stiles-Squires Wedding.

Marcus Stiles and Mrs. Ida Squires, both of this city, were married at 7 o'clock last evening at the Main Street Baptist parsonage. The ceremony was performed by Rev. Dr. Charles S. Fendleton, and Mr. and Mrs. Stiles will reside at 13 Dewey street.

### ABORIGINES POWDERED NOSE

Recent Find Shows Girls of Prehistoric Age Beautified Themselves With Ocher.

Los Angeles, Cal. — Present-day girls, with their cosmetics, orange sticks and nail powders, may be chagrined to learn that their aboriginal sisters, who disported themselves beside the Pacific generations ago, knew something about personal adornment.

A stone "powder puff" found on Santa Catalina Island, together with a prehistoric toothbrush, is evidence of the early-day activity of women, according to Ralph Glidden, who made the discoveries while searching Indian graves on the island for the Mayo foundation.

The bristles of the toothbrush were gill fibers from the jawbone of the sturgeon and the "puff" probably would seem heavy today, for although it looks like a lump of lead, it was used, it is said, to crush the ocher with which the Indians beautified themselves.

### Making Sure.

A story is told of a farmer who was having trouble with his horse. It would start, walk about 20 yards or so, then stop for a few seconds and start again, only to repeat the performance. After watching this exhibition for some time a friend overtook the farmer during one of the horse's long waits. "What's the matter with the horse?" he asked. "Is it lame?" "Not as I know of," answered the farmer, very crossly, "but he's so dashed feared I'll say 'whoa' and he won't hear me, so he stops every now and then to listen."—The Tattler.

### 'MOVIES' FOR SCHOOLS. PLAN

Visual Education, at Cost of Millions, Talk of Association at Washington.

Washington.—A "movie" machine in every public school to aid in the education of the children of the country is the aim of the Visual Educational Association, which has opened headquarters here.

The association says congress will be asked to appropriate funds to co-operate with the states in carrying out the program, the expense being borne equally by the federal and state governments.

While estimating the ultimate cost at \$100,000,000, it is anticipated that this sum will be needed by instalments.

### Value of Youthful Thinking.

We are learning that the fabled foundation of youth lies in ourselves; is in our own mentality. Perpetual rejuvenation and renewal are possible through right thinking. We look as old as we think and feel, because thought and feeling maintain or change our appearance in exact accordance with their persistence or their variations. It is impossible to appear youthful and remain young unless we feel young. Youthful thinking should be a life habit.—Olefin Swett Marden in Chicago Daily News.

### Where the Dead Exceed the Living.

Wilmington, O.—Wilmington's city of the dead has a greater population than Wilmington's city of the living, according to census figures. There are 5,621 sleeping in the long sleep in Sunset Grove cemetery while Uncle Sam's enumerators counted only 5,637 persons living in the town.

## FILMS HELP TO FOREIGN TRADE

Motion Pictures a Silent Partner of Uncle Sam in His Export Trade.

### CREATES DEMAND FOR GOODS

Latin People Disposed to Pattern After What They See on Screen That Pleases Them—Aids Live Stock Introduction.

Washington.—Uncle Sam has a silent partner in his export trade the motion pictures.

How the "movies" are developing trade and spreading confidence in American goods and American methods, and creating an Americanized atmosphere which should prove the strongest possible asset toward permeability of trade in South America, is told by Dr. Julius Klein, commercial attaché at the American embassy, Buenos Aires, who was formerly chief of the Latin American division, bureau of foreign and domestic commerce.

The Latin people, he points out, are disposed to pattern after what they see in the motion pictures that appeals to them. Thus the films have made them familiar with the appearance of American automobiles and of what they can do. The movies have created a demand for American-made office furniture by showing the fittings of a business magnate's office, which the South American merchants in their prosperity are eager to copy.

As regards ready-made clothing, the South Americans, particularly in Cuba, have gotten into the habit of ordering a suit of clothes like their favorite hero wore in a certain film. Thus the merchants have come to stock up with good lines of ready-made clothing, which are very popular. The movies have had a like effect on industrial development.

All this, Doctor Klein emphasizes, has happened naturally and has not been forced as trade propaganda.

### Boom to U. S. Trade.

The more use that can be made of educational films, introducing industries comparable with their own industries—such as agriculture, cattle-raising, mining—the more benefits to American commerce will result. Such films can and should carry a romantic scenario, says an appeals most strongly to the Latin temperament, with cut-ins on our methods in industries similar to theirs. As we show them a new and better method their confidence in us and the output of our industries grows cumulatively.

Germans and Italians particularly have been thus endeavoring to ingratiate themselves in South American countries, Doctor Klein says, and the influence of the Italians in the South American markets from an economic and commercial viewpoint must be reckoned with.

American manufacturers of farm machinery are now co-operating with the Philippine department of agriculture and natural resources, in an endeavor to arouse in the farmers of those islands a true appreciation of the possibilities by using such machinery. Motion pictures are being prepared to show the most approved methods of cultivation, preparation of seed, use of farm machinery, harvesting and storing crops, and methods of packing and handling where these processes are involved.

Aids Live Stock Introduction. Introduction of American breeds of live stock and poultry into South America, particularly Argentina, is to be aided by the use of motion picture films, prepared for this purpose by the United States department of agriculture. These films also will show American methods of breeding live stock and handling it in its many phases from the farm to the home table. The Argentine government has shown special interest in the introduction of American methods of handling live stock, as it has in the agricultural practices of the northern half of the continent generally.

As evidence of this the Argentine embassy in Washington has already purchased ten films on these subjects for educational use in Argentina and has frequently had United States department bulletins translated into Spanish for home consumption.

The Buenos Aires & Pacific railway has also been a heavy purchaser of such films for use along its system. Its representative in this country was recently negotiating with the United States department of agriculture for films showing the swine industry in the United States, and in making arrangements for the introduction of American swine in Argentina.

It is planned to show important swine-breeding farms, the work in the big Chicago packing houses and the preparation of the product for the table. Pictures will be made of the various types of American hogs, and an effort will be made to give some idea of the vastness of the industry in this country.

### Made to Eat With Dog. Husband Gets Divorce

San Francisco.—A mother-in-law with a bad temper and a dog with dogs that slept in his bed and took breakfast off the same plate with him wrecked the home life of Joseph R. Prada, 525 Twenty-fourth avenue, he told Superior Judge George H. Cabaniss. He was granted a divorce from Mrs. Lillian M. Prada, who, he said, insisted that the dog sleep in her husband's bed. Prada's mother testified she had seen breakfast served to her son and to his wife's dog, both in bed, off the same tray.

## WILL ON WAX NEWEST STUNT TO BEAT FRAUDS

Lawyer Makes Testament on Talking Machine and Files It for Record.

What he says he believed to be a "fraud-proof" will has been made and filed in the office of the clerk of Polk county, Iowa, by Theodore Mantz, a Des Moines lawyer. Mr. Mantz dictated his will into a talking machine, and had it recorded in wax.

At the end of the dictation, C. H. Miller, a lawyer, and H. W. Brandt, a court reporter, testified into the machine they were witnesses to the "making" of the will, and spelled their names out in full as the witnesses. The record then was put on a machine and reproduced the voices. Being pronounced correct by Mr. Mantz, he took it to the clerk's office, had the box containing it sealed in wax and filed.

Mr. Mantz has instructed Mrs. Mantz to take the case to the highest court of the country if the validity of the will should be questioned.

The will on a record is believed by its maker to be the first of its kind in the country. Lawyers say a possible objection to wills on talking machine records is an Iowa statute which says conveyances of property worth more than \$200 must be in writing. Mantz says he will go before the next session of the Iowa legislature and endeavor to get a bill through which will legalize spoken wills when recorded as his is.

Mantz says he believes the future will see greater uses of talking machines and records, and in his opinion it would be much more difficult to "tamper with" a spoken will than a written one.

### Ways to Clean Books.

Speaking of books, most family libraries are disfigured by one or two once-lovely volumes in unpractical bindings of pale silk or white leather, long since dimmed by grime. Art gum or a soft kneaded eraser may clean them. If not, try fine powdered pumice lightly applied with a clean chamois. This is what picture dealers use to clean the margins of old prints. It roughens the surface less than rubber.

## Make Your Own BUG KILLER P. D. Q.

You can easily make at home a full quart of the strongest bug-killer for 35c, enough to kill a million bedbugs, roaches, fleas and ants. ### PERIL IN DREDGING WORK

Deepening of East River at New York Is Attended With Great Danger.

New York.—Death by drowning or dynamite—these are the principal dangers facing the men who are dredging the East river to Long Island sound in order to give New York another deep-sea passage to the Atlantic.

How this undertaking, which will require 15 to 20 years and an expenditure of \$55,000,000 to \$75,000,000, is being carried on was told here by officials of the dredging company which is doing the work.

"The work must be done during the slack water period at the change of tides, and, as there is generally from 500 to 1,000 pounds of dynamite aboard each drill boat, the danger of being rammed by passing craft and sent to the bottom is complicated with the possibility of being blown into the air," one official said.

"In Hell gate we are demolishing Frying Pan reef, which is 350 feet by 360 feet. From eight to ten months will be required to complete this task."

"The longest slack water period registered in Hell gate during the last 40 years was 23 minutes. It is within that slack period that drilling points must be located, charges planted and fired and the position of the plant changed. Divers on this work are generally unable to spend more than 15 minutes under water at a time, so that they work but half an hour in a 24-hour day."

## HANDICRAFT FOR GIRLS

By DOROTHY PEPKINS

(Copyright, by A. Neely Hall.)  
A BRUSH HUT.

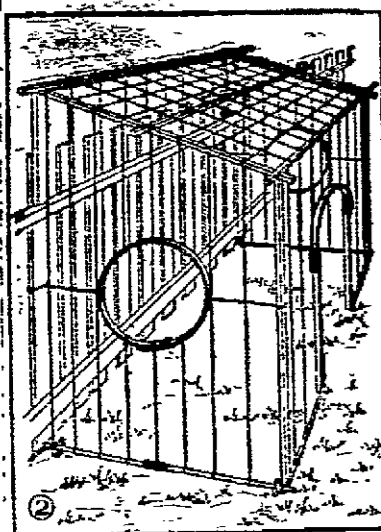

The loosely constructed walls and roof of the pretty little playhouse in Fig. 1 will permit breezes to pass through when any are astir, yet keep out the sun's rays.

Figure 2 shows the completed framework. To make this strong, it is easiest to support one side on a fence post. You will need poles for two corners, a couple of short pieces to nail to the fence to increase its height, if the fence is a low one, five or six poles for the roof, and sticks for

the sides of the doorway and to place around the base of the framework. An old mop handle, rake and hoe handles, broom handles, clothes poles, a rug pole, curtain poles, worn-out shade rollers, any of these will do for the framework. Broom handles and other short pieces can be spliced end to end, by binding stick splints to opposite sides with string (Fig. 3). In addition to the poles, you will need a barrel hoop for the framework of each window opening, and another for the arched top of the doorway.

Figure 4 shows how to begin the framework by nailing uprights A, to the fence top, for two corners of the hut, and how the framework of each

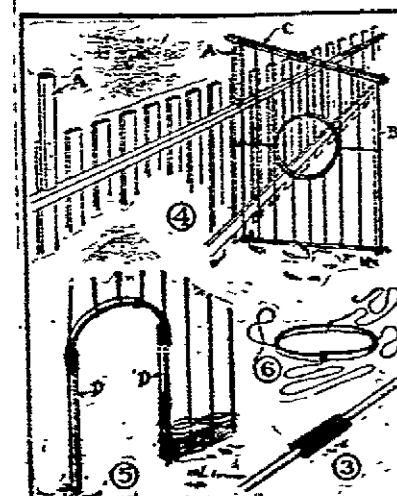

end is completed by erecting a corner pole B opposite upright A, and fastening a roof pole C across A and B.

When the end frames have been put up, connect the tops with three poles, as shown in Fig. 2. These poles can be tied in place.

Figure 5 shows how to make the doorway frame by driving stick D into the ground each side of the opening, and binding the ends of an opened barrel hoop to the tops with string. The hoop window frames are held in position by twine (Fig. 4). First tie four strings to the hoop, spacing them equidistant from one another (Fig. 6), then tie the string ends to the framework so as to bring the hoop in the center.

Figure 2 shows how the framework strings are tied. The distance between them should not be more than nine inches. Tie the lower end of the

strings to the sticks at the base of the framework. Run the roof strings both ways.

The covering material must be woven in and out around the strings, as shown in Fig. 2.

If the roof poles have been crossed and allowed to project, as shown in Fig. 2, strings may be tied to their ends, and the roof covering brought out over the strings, to make a roof projection.

After the roof and walls have been covered, take grass and leaves and stuff any openings that you find. Then your brush hut will be all complete, ready to play in.

## AFTER DRAFT SLACKERS

Department of Justice Has Convicted 5,000 Men Up to This Time.

Prison sentences from 30 days to one year have been imposed on the 5,000 draft slackers who have been convicted in federal courts, according to reports from the department of justice.

The investigation of the 30,000 cases that yet remain to be looked up is proceeding rapidly, the officials say, delinquents being rounded up every day.

Approximately 275,000 cases of men who succeeded in avoiding actual entrance into the service have been investigated by the department, out of a total of 318,314 reported. About 10,000 cases of failure to register and an equal number of false questionnaires have been shown by the investigation.

About 25 per cent of the men listed as delinquents were found by the department's agents to have enlisted in the American or allied armies without the knowledge of their local boards.

**Tribute to the Pen.**

The pen, like the sword, has a dark side to its history. Not only has it created a good deal of rubbish, but it has appealed to the evil passions of the ignorant and the disloyal; it has incited anarchy, sedition and hatred. But to the pen we are indebted for all the books of the world. It has enabled poets to sing to us, fictionists to charm us, philosophers and men of science to share with us their valuable knowledge; it gives us the Bible, it inspired civilization. It is a mighty agent "Beneath the rule of men entirely great."

## NURSING SERVICE IS RAPIDLY EXPANDING

This American Red Cross Work Flourishing in Small Towns Throughout Country.

More than 37,000 graduate nurses have been enrolled in the American Red Cross to date and its department of nursing is daily increasing this enrollment.

The department of nursing has been authorized to maintain an adequate reserve of nurses for the army and navy. It will continue to supply the needs of the United States Public Health Service to which it has assigned more than 1,000 nurses in the last year.

It will assist in establishing proper nursing service in foreign countries where the American Red Cross has organized hospitals, dispensaries and schools for nurses. Courses in home hygiene and care of the sick have been started for thousands of women who have never received any education in this direction. Rural nursing which was in its infancy a short while ago has been put ahead at least a decade through the work of the department of nursing and local Red Cross chapters.

Public health nursing has been extended to many rural communities and now flourishes actively in hundreds of small towns and counties. Nearly a thousand efficient nurses have already been assigned to this kind of work.

The department of nursing is uniting with other organizations in a year's campaign in recruiting nurses for training schools, in educating the general public as to standards of nursing education and in showing communities their responsibility toward schools of nursing. It will endeavor to meet all these needs as well as to continue the enrollment of dietitians who will be utilized as instructors in home dietetics, in developing nutritional clinics, and in supplying dietitians for the United States Public Health Service and the civilian hospitals.

The Nursing Service will continue to offer to women and young girls the opportunity of securing instruction in home hygiene and care of the sick in

every community in the country. This instruction has not only laid the foundation for public health but in some places has given impetus to the establishment of hospitals and community school houses.

"As a community profits by the work of the nurse," says Miss Clara D. Noyes, director of the department of nursing, "it is logical that the community should be aroused to its responsibility. The American Red Cross stands ready to help in a general campaign of recruiting and must have the support, sympathy and understanding of the medical profession as well as the intelligent co-operation of the people at large."

## "Grand Old Party"

The term "Grand Old Man" was applied to Mr. Gladstone in 1882, and is accredited to John Bright, who used it in a speech that year in Northampton, England. In America the phrase was appropriated and changed by members of the Republican party, who affectionately called it the "Grand Old Party." This at once became a newspaper slogan and in the headlines was shortened to "G. O. P."

## WHOLE TOWN ON SPREE

Railroad Wreck Turned Loose 100,000 Gallons of Wine at Defiance, Ia.

The town of Defiance, Ia., is recovering from a two-day spree which resulted from the wrecking, in the heart of the town, of two oil tank cars filled with California wine. Each car was marked "30,000 gallons capacity," and each was filled to capacity. It was part of the government stock of port wine being moved from San Francisco to New York.

Both cars were smashed so badly that they began leaking, and the wine poured from half a dozen spread seams and broken rivet holes. The bucket brigade gathered, and tin cups, dishpans and wash tubs were pressed into service. When the home supply of wine-holding utensils gave out, people rushed to the stores to buy more, but the stores were closed. The clerks were at the wreck.

After two days of liberal potations, Defiance awoke with that "brown taste" in the mouth. The tank cars are still at the station, but their interiors are as dry as Sahara.

**POWER**, sturdiness and dependability have been qualities of Buick Valve-in-Head Motor Cars from the time that the name Buick first became linked with the automobile industry. Today, in equal measure as in the past, the Buick Motor Company is dedicated to a continuance of the policy that has caused the Buick car to occupy the position it holds in the public mind.

To all that the name Buick has meant in twenty years of automobile history, the new Nineteen Twenty One Buick brings that of movement, the finest of every and feature, that sheer beauty of design which inspires a pride of ownership in a fine motor car.

The new Buick line comprises seven models, one for every possible demand. Each has the famed Buick Valve-in-Head Motor, as rugged and powerful as ever, yet refined into a mechanism of unusual quietness.

The improved radiator, hood and cowl lines give a touch of trimness to the body, yet with no sacrifice of Buick individuality.

A more resilient spring suspension gives these new Buick models a riding comfort as delightful as their exterior appearance is pleasing.

Each of these seven models has its own value particularly adapted to a distinct class of service. All possess those inherent Buick qualities that assure the owner the uninterrupted use of his investment.

VITAGRAPH COMEDIAN

He formerly made comic cartoons with his pen; now he does them in person. Larry Semon, star and creator of his Vitagraph comedies, was one of the best-known New York newspaper cartoonists before he became a star of the screen. His work is familiar to the readers of various leading dailies of the metropolis. Then Mr. Semon became interested in the possibilities of motion pictures and determined to invest his comedy sense in their production. He became associated with the Vitagraph forces and spent several years as a player of small parts and as an assistant director. Finally he was entrusted with a company of his own. The Larry Semon Vitagraph Comedies are the result. It is to be said in Mr. Semon's favor that he has never committed the error of many screen comedians—that of imitating the mannerisms of others. His work on the screen is as individual as his cartoons in newspapers.

#### BRIDES MUST GO TO SCHOOL

If They Are Young Enough Marriage Does Not Exempt Them.

Sacramento, Cal.—While there is no provision in the school law to prevent girls under the age of sixteen accepting proposals or contracting marriage, the marriage itself does not offer sufficient excuse in such cases to keep the young brides away from full time classes at school.

This is according to a ruling by Will C. Woods, state superintendent of public instruction, in answer to a query raised several times during the last few months.

"We have gone into this question thoroughly," Wood stated in explanation of the matter, "and while there is nothing in the school law to prevent girls under sixteen from getting married, young brides of this character must go to school full time the same as their unmarried sisters, unless a certificate signed by a physician is presented to the school authorities showing that the physical condition of the pupil is such as to render attendance inadvisable, or that there is no school within reach."

Notice to Public.  
Commencing September 1, and continuing until further notice, the price for our bottled Pasteurized milk will be 14 cents per quart, 8 cents per pint, heavy cream 25 cents per half pint, coffee cream 20 cents per half pint. Milk is still the cheapest food you can buy, and we believe that we are retarding it at a less price than in any other town or city of the same size in the state.

#### MAKES "SWISS" CHEESE

Finds a Way to Fill United States Product Full of Holes.

"Swiss" cheese—the kind full of holes—long a luxury on American tables, is soon to become a commonplace commodity. The holes, the distinguishing mark of real "Swiss" cheese, can now be made by a new culture discovered by W. T. Weimar, a cheese specialist of Sugar Creek, O.

Since the manufacture of "Swiss" cheese in this country no dairyman or farmer has been able to produce the holes in quantity and size displayed by the imported from the continent. Long have scientists endeavored to bring in an effort to discover the secret.

Weimar, who makes no pretensions to scientific achievement, has agreed to demonstrate to cheese makers, farmers, and dairymen of Tuscarawas county how to produce the long sought "holes" by means of a new culture.

Through Weimar's process American-made "Swiss" cheese can be made to so closely resemble the imported article that the ordinary person cannot distinguish the difference. The new culture, Weimar says, can be used successfully by any dairyman or cheese maker.

#### DEER KILLS SNAKE

Tramples Life From Big Reptile in Little Time.

A combat between a buck deer and a five-foot blacksnake was witnessed in a field about a mile and a half west of Youngdale, Pa., by Emmanuel Arnold, who had been fishing in McElhattan run for trout and was walking to Lock Haven via Castanza.

The fight was of short duration, for the deer trampled the life out of the big snake in a few seconds.

Arnold saw the buck and a doe in a field near a woods, and the next instant the buck leaped in the air four times in succession and came down with his feet close together. As he started toward the field to make an investigation the deer ran into the woods and disappeared. On reaching the spot where the animal had been standing Arnold was surprised to see a large blacksnake crushed and mangled by the sharp-pointed hoofs of the deer, which were bunched together each time the deer landed on the reptile.

#### Madagascar Gold.

A curiosity preserved at the Philadelphia mint is a small consignment of gold from Madagascar, which is of an extraordinary brightness. It was mined, smelted and put up for shipment by natives, who, for a receptacle, took a piece of bamboo six inches long and two inches in diameter, polishing the outside to glasslike smoothness. Then they put a wooden cork in one end, poured in the melted gold and corked up the other end.

Beginning on the morning of Sept. 2, it is the intention of this firm to make an exposure of certain inside facts concerning married life.

With the aid and co-operation of the people of Oneonta, this revelation will take the form of an unprecedented local event. Among those who will be seen on the subject of married life are Ben Turpin, whose cock-eyedness has ever remained in a place by itself; Phyllis Haver, whose bathing suit habits know no bounds; Ford Sterling, Louise Fazenda and other well-known celebrities.

The time has come to enter sacred married life or place marriage on the blink. Everybody, no matter how old, young or young at heart, The Strand Theatre. 4t

## WOULD RESTORE MEXICAN MINTS

Association of Mine Owners Claims the Country Needs "Hard Money."

#### UNLIMITED SILVER COINAGE

Expert Says If Old-Time Minting Plan Is Re-established Mexico Will Coin 500,000,000 Ounces of Silver.

Nogales, Ariz.—The chamber of commerce has joined with Charles Butters, mining expert of New York and San Francisco, to promote the formation in Mexico of an association of silver producers to rebuild the abandoned mints throughout the nation and thus bring about once more the free and unlimited coinage of silver. Mr. Butters states that if the old time minting plan is re-established it will mean that Mexico will coin 500,000,000 ounces of silver.

The mining expert has extensive interests in mines in Mexico, Salvador and Nicaragua, and is known for his introduction of the cyanide reduction process into Mexico. He says the greatest need of Mexico today is small change and "hard money."

#### Too Much Paper Money.

The revolutions and the world war, says Mr. Butters, have stripped Mexico bare of silver coins. In its place, he says, is a vast quantity of paper money issued by the varying governments as fiat money. He blames the great flood of paper money in Mexico for most of the suffering in that nation in connection with the various revolutions.

His plan, backed by the Nogales chamber of commerce, is to have the old mints rebuilt and placed in operation by the association of silver mine interests at the cost of the association. Then the cost of the renewed mints would be recovered by the association from the mint profits over the course of years. Upon the paying out of the capital charge in restoring the mints they are to be returned to the Mexican federal government as its property, to be thereafter operated under supervision of the federal government.

#### Benefits Are Threefold.

This system, according to the silver mine expert, has threefold benefits: First, it will at once restore to Mexico the "hard money" and small change needed by merchants, banks and business men and now lacking; second, it will provide a permanent primary market at home for large amounts of silver production; third, it will stabilize

the silver market because the Mexican home requirements will take up a great quantity of silver now exported and sold on a speculation market through San Francisco for the Orient. Also this will serve to stimulate silver production because of the better market conditions and thus raise the primary market price for the semiprecious metal.

President Bracey Curtis of the chamber of commerce has named a committee of prominent men to take up the mint proposal with Gen. Alvaro Obregon on his impending visit to his home in Nogales, Sonora, this month.

Meanwhile the proposition will be submitted by the Nogales chamber of commerce to the civic bodies of all other border cities and the officials of border states.

#### No Rent for a Year.

Pontaguerie, N. Y.—Here's a chance for some couple about to be married to drive all their prospective rent troubles away. Father Albert F. Rivers, pastor of the Church of the Assumption, announced that because a marriage has not been performed in his parish for four years, he will marry the first couple wishing to enter the matrimonial state, free of charge, provide an elaborate reception and will pay one year's rental for any available residence here, selected by the couple.
